

AFMA Nature-Based Stormwater Management Presentation Arizona State University Orange Mall Walking Tour

Presented by:

Jillian Edmonson, Landscape Architecture
Analyst, WERK | urban design

Kayla Tarr, PhD candidate, ASU School of
Sustainability

Join us for a walking tour of Orange Mall, ASU's first Sustainable SITES Gold project! AFMA is sponsoring an opportunity to see, discuss, and learn about the green stormwater management system along the most active pedestrian mall on campus. Installed in 2017, the Orange Mall extension has increased shade, on-site stormwater management, and educational opportunities through continued water quality and quantity monitoring.

For more background on this project, see the Landscape Performance Series case study: <https://www.landscapeperformance.org/case-study-briefs/ASU-orange-mall>

MARK YOUR CALENDAR

Date: March 29th, 2024

Time: 10:00 am – 12:00 PM

Where: ASU Student Pavilion, 400 E
Orange St, Tempe, AZ 85287
